

# EL PASO COUNTY PARKS

2020 – 2024

# CAPITAL IMPROVEMENT PROGRAM

JULY, 2019

# 2020 - 2024 Capital Improvement Program

## Introduction

El Paso County Parks (County Parks) currently manages a multi-million dollar park system that includes approximately 8,000 acres of parkland, 123 miles of trails, 32 pavilions, 11 playgrounds, 23 restroom facilities, two nature centers, 2,500 acres of conservation easements, and numerous athletic facilities. County Parks also manages the El Paso County Fairgrounds and landscape maintenance efforts at County buildings.

It is critical that County Parks utilizes a systematic process to ensure all facilities are well-maintained and that we make every effort to meet the parks and recreation needs of our citizens with our available resources.

To achieve the above goals, County Parks develops a five-year Capital Improvement Program (CIP) that includes proposals for land purchase, facility development and / or improvements. A capital improvement is defined as having a useful life of more than five years with a value in excess of \$25,000.

The CIP is a critical management tool that provides the following:

1. Serves as a comprehensive needs assessment for capital projects;
2. Provides a prioritized implementation schedule;
3. Identifies funding sources to complete the proposed improvements;
4. Ensures ongoing major maintenance in the County's park system.

## Funding Sources

### Regional and Urban Park Fees

Regional and urban park fees are paid by developers during the land development process to support new or enhanced park and recreation facilities to address population growth in respective areas of the County. Please see Appendix B and C for available regional and urban park fee funds.

### 1A Funds

The Board of El Paso County Commissioners approved coordinated election ballots in November, 2014 and November, 2017 seeking voters' permission for the County to retain and expend approximately \$2 million in excess revenues collected in 2013 and \$1.5 million in excess revenue collected in 2016. Both ballot issues were approved by voters. The funds have been and will be used for improvements at regional parks, open space, nature centers and regional trails. The remaining 2014 funds will be used to support the Kane Ranch Open Space project. The remaining 2017 funds will be used to support projects at Bear Creek Regional Park, Falcon Regional Park, and Fox Run Regional Park.

### Grants / Fundraising

Every effort is made to leverage local funding sources with federal, state and local grants, and / or fundraising or collaborative efforts between other governmental jurisdictions and private organizations.

## Annual CIP Timeline

May / June - Staff reviews / updates CIP

June - Management team reviews recommendations and completes CIP proposals for Park Advisory Board (PAB) consideration

July - Park Advisory Board reviews / endorses proposed CIP for recommendation to Board of County Commissioners (BoCC) / County Administration

August - Funding for Park CIP projects are included in the upcoming County budget

November - BoCC approves budget for upcoming year

## Project Prioritization Methods

County Parks utilizes the following criteria to determine the timeline and funding priorities for the respective Park projects:

### Risk management

The project will reduce the potential of injury to facility users.

### Citizen needs

Project has received high rankings on citizen surveys or other demonstrated citizen input processes.

### Funding

Projects that can be completed from available funding sources will be given a higher priority.

### Timing

Projects that are part of a phased improvement program that requires the phases be completed in sequence.

### Critical function

Projects that must be completed for a critical function within a respective facility (American with Disabilities Act issues, irrigation, restrooms,...) will be given priority over non-critical function projects.

### Manpower reduction

Project will reduce the manpower to maintain the respective facility.

### Aesthetics

Project will improve the overall aesthetics of the facility.

### Long-term stability

The project will improve the long-term stability of the respective facility which will in turn, reduce ongoing maintenance.

### Address overall county goals

Project addresses County objectives in the County's 2017 – 2021 Strategic Plan.

# 2020 - 2024 Capital Improvement Program

## Project: Bear Creek Regional Park Improvements

### Bear Creek Regional Park Improvements

The updated Bear Creek Regional Park Master Plan was approved in December, 2014. It is proposed to complete the following projects to continue to enhance the recreational experiences at Bear Creek Regional Park.

- Remove and replace main restroom facility
- Remove and repurpose the southern tennis courts into twelve pickleball courts in collaboration with the Pikes Peak Pickleball Association
- Continue with roadway and parking lot upgrades (based on available funding)

### Funding Sources

Ballot Question 1A	\$ 465,000
Regional Park Fees	\$ 75,000
Fundraising	\$ 200,000
Lottery Funds	<u>\$ 160,000</u>
Total	\$ 900,000

### Estimated Costs

New Restroom	\$ 375,000
Pickleball Courts (12)	<u>\$ 525,000</u>
Total	\$ 900,000

### Bear Creek Regional Park Map

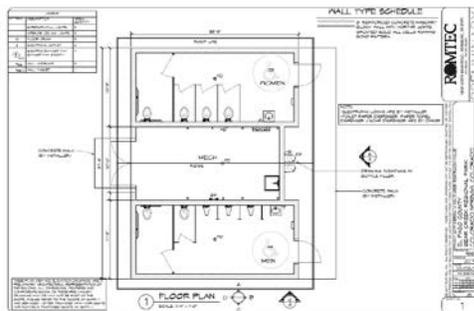

### Bear Creek Regional Park

Set in the rolling foothills of Pikes Peak, Bear Creek Regional Park offers a pleasant escape within the city limits. This 545-acre regional park supports picnic pavilions, playing fields, tennis courts, playgrounds, archery range, horseshoe pit, volleyball and basketball courts. Additionally, ten miles of multi-purpose, non-motorized trails wind through the park.

### Bear Creek Regional Park Map Street View

Bear Creek Regional Park is a unique park in that it is owned and operated by El Paso County, yet it is entirely surrounded by the urbanized area of the City of Colorado Springs. The park provides a variety of active and passive outdoor recreation opportunities for citizens of El Paso County as well as a large number of visitors each year.

2020 - 2024  
Capital Improvement  
Program

Project:  
County Fairgrounds  
Walkways

**El Paso County Fairgrounds Improvements**

El Paso County updated the County Fairgrounds Master Plan in 2015 which identified existing facilities that need upgrades to improve functionality, protect infrastructure, and enhance user experiences.

The proposed improvements include:

- Complete a site survey and drainage plan (2019).
- Develop plans and specifications for walkways throughout the fairgrounds to connect various facilities.
- Focus will be placed on the addition of paved paths throughout the fairgrounds with emphasis on user-friendly access that meets American with Disabilities Act requirements throughout the property.
- The extent of additional walkways will be based on the amount of available funding.

**Funding Sources**

County Major Maintenance Funds	\$ 20,000
Grant Funding – CDBG	<u>\$125,000</u>
Total	\$145,000

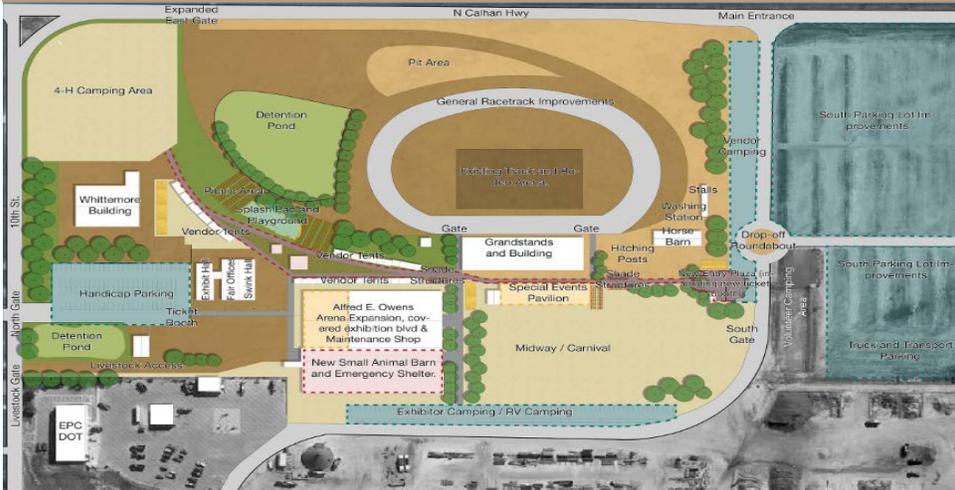

**Estimated Costs**

Construction Plans and Specification	\$ 30,000
Construction	<u>\$115,000</u>
Total	\$145,000

## Project Timeline

Site Survey / Drainage Analysis	August – September, 2019
Complete CDBG Grant Application	November, 2019
CDBG Grant Announcement	May, 2020
Design / Construction Plan and Specs	June – July, 2020
Bid Construction	August, 2020
Project Construction	September – October, 2020

### El Paso County Fairgrounds Map

### El Paso County Fairgrounds

The El Paso County Fairgrounds and Events Center is located in the north-eastern part of El Paso County, Colorado, just south of the Town of Calhan. The fairgrounds property involves over 40 acres of land which provides a variety of facilities for use by individuals, businesses, groups, and the County for a wide range of educational, social, and recreational purposes. Over 200 events are hosted at the Fairgrounds each year.

# 2020 - 2024 Capital Improvement Program

# Project: Falcon Regional Park Improvements

## Falcon Regional Park Improvements

Falcon Regional Park is a 215 acre regional park located along Eastonville Road northwest of Stapleton Road.

- El Paso County completed the installation of Phase I improvements in 2015. This included two baseball fields, multi-use field, and parking lot. Construction of the next phase of improvements is planned to launch in 2020.
- To support Phase II improvements, the County will complete a design effort in 2019. The phase II design plans will be used by the County to guide future improvements and estimate construction costs.
- The County will submit a Great Outdoors Colorado grant to help fund construction for the proposed Phase II improvements.
- Depending on final construction cost estimates and GOCO grant funding, the Phase II improvements may include an additional baseball / softball field, upgrades to the existing multi-use field and parking lot, additional parking, playground, expanded trail system, and a restroom.

## Funding Sources

Great Outdoors Colorado Grant	\$ 350,000
Regional Park Fees	\$ 210,000
Ballot Question 1A	\$ 140,000
Fundraising	\$ 25,000
Total	\$ 725,000

## Estimated Costs

Baseball / Softball Field	\$ 250,000
Restroom	\$ 170,000
Parking Lots	\$ 90,000
Playground	\$ 80,000
Multi-Purpose Field	\$ 75,000
Equestrian Trailhead / Trails	\$ 60,000
Total	\$ 725,000

Capital Improvement  
Program

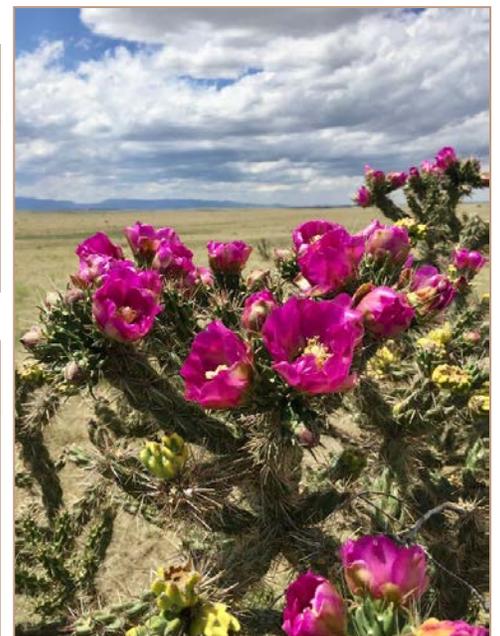

Project:  
Kane Ranch  
Open Space Project –  
Phase 1

**Kane Ranch Open Space Phase I**

The Kane Ranch Open Space Master Plan was approved by the Board of County Commissioners in August, 2018. The proposed Phase I Improvements include:

- An access road will be constructed from Squirrel Creek Road downhill to the main trailhead area.
- The trailhead parking area will include parking spaces for passenger vehicles and equestrian trucks and trailers.
- A vault toilet will be installed at the trailhead that will allow for low maintenance and long service life, utilizing concrete construction for durability.
- A concrete trail crossing will be constructed across Williams Creek to allow park users to access the southern portion of the property and the extensive trail network.
- A Tier I trail will lead park visitors from the trailhead area to Williams Creek, where the trail system will utilize primarily double and singletrack trails for low impacts to the surrounding prairie environment.
- Picnic tables may be installed at the trailhead area as part of the Phase I Improvements.
- Automatic heavy-duty security gates are being researched as a means to control access to the park after hours.

**Funding Sources**

Regional Park Fees	\$220,000
Ballot Question 1A Funds	\$180,000
<b>Total</b>	<b>\$400,000</b>

**Estimated Costs**

Phase I Design (2019)	\$ 50,000
Trailhead Parking Area	\$200,000
Tier I & Tier IV Trails	\$ 75,000
Perimeter Fencing	\$ 20,000
Vault Toilet Structure	\$ 55,000
<b>Total</b>	<b>\$400,000</b>

# 2020 - 2024 Capital Improvement Program

## Project: Northern Nature Center Project

### Northern Nature Center

Based on projected population growth and public surveys in the El Paso County Parks Master Plan in 2013, developing a nature center in northern El Paso County was identified as an objective.

#### Strategic & Master Plans Alignment:

- El Paso County 2017-2021 Strategic Plan (Strategy D / Objective 4 - "Complete a feasibility study for a northern El Paso County nature center.")
- El Paso County Parks Master Plan (Rec. & Cultural Services Goal #1) "The Master Plan proposes the addition of a new nature center in Northern El Paso County...[that will] provide nature-based programming and will maintain the diversity and quality of and participation in award-winning environmental education programs"

A feasibility study will be completed in 2019 to analyze and evaluate location, potential partnerships/ collaborations, public support, revenue sources, construction costs, and long-term maintenance and staffing.

In 2020, the County will apply for a GOCO planning grant to fund the design process. The team will also initiate the capital campaign for major funding support. The project is planned for completion in 2023.

### Funding Sources

Regional Park Fees	\$30,000
GOCO Planning Grant	<u>\$60,000</u>
Total	\$90,000

### Estimated Costs

Building & Site Design	\$90,000

## Background

The El Paso County Nature Centers provide nature-based, cultural programs and events to children and adults of all ages. Last year, over 27,000 individuals participated in programs at the Nature Centers. The Nature Centers offer outdoor classroom experiences for children and youth, interpretive programs, and special events.

The Nature Centers have active partnerships with schools, school districts and other community-based nonprofit organizations across the Pikes Peak region. Staff team members coordinate closely with school districts and partnering organizations to coordinate with school curriculum, and to support teachers, educators and nonprofit staff in meeting educational and youth development goals. In addition to schools, The Nature Centers host Scout programs, preschool programs, nature camps, birding classes, community fundraisers and active adult club programs.

The Nature Centers engage volunteers in a variety of capacities. The Nature Centers benefits from the support of over 70 volunteers who donate more than 7,000 hours annually in the following areas: information receptionists, interpretive programs, environmental education, fundraising, and special projects.

## Potential Nature Center Locations

### Palmer Lake Recreation Area

### Palmer Lake Recreation Area

The Town of Palmer Lake and El Paso County entered into a lease agreement in 1986 that provided the County the opportunity to construct a playground, parking area, pavilion, and restroom facility on Town property on the east side of the lake. The lease expired in 2011 and the Town of Palmer Lake now maintains the recreation facilities. The County constructed the New Santa Fe Regional Trail trailhead on County property and continues to manage the trailhead.

The recreation area hosts ice skating, fishing derbies, 4<sup>th</sup> of July Fireworks displays, and many Town special events.

The Bill Crawford Memorial was constructed in 2017 on County property to honor the WWII Medal of Honor recipient. The memorial consists of 2 flower gardens and 2 large stones describing his heroic acts.

2020 - 2024  
Capital Improvement  
Program

Project:  
Fox Run Regional Trail

**Fox Run Regional Trail**

This project includes design and engineering for the Fox Run Regional Trail.

- The Fox Run Regional Trail is a planned 3 mile regional trail that connects Fox Run Regional Park to Baptist Road. The County owns real property and easements along the entire corridor. This project will include design, engineering and development of construction documents for construction of the regional trail.
- The construction of the trail requires site-specific design to address roadway crossings, encroachments from adjoining residential properties, and navigating along active utility and drainage corridors. Additionally, there will be direct coordination required with several metropolitan districts, utility providers, and residents along the planned regional trail corridor.
- El Paso County is proposing to submit a State Trails Planning Grant to Colorado Parks and Wildlife to fund final design, engineering and development of construction documents. Upon completion of this effort the County will move forward with construction of the regional trail.

**Funding Sources**

Regional Park Fees	\$ 20,000
Colorado Parks and Wildlife	\$ 30,000
Total	\$ 50,000

**Estimated Costs**

## Fox Run Regional Trail Map

## Fox Run Regional Trail

The Fox Run Regional Trail is a planned 3 mile regional trail that connects Fox Run Regional Park to Baptist Road. The trail passes through three developments and connects to several non-County trail systems.

The County has ownership of real property and easements for the entire trail corridor. Several sections of the trail are already constructed and are being used informally. This project will formalize the entire trail corridor and include coordination with several utility providers, metropolitan districts, and neighborhoods along the regional trail corridor.

The County will pursue grants with Colorado Parks and Wildlife for design and construction of the regional trail.

# 2020 - 2024 Capital Improvement Program

## Project: Hanson Trailhead Improvements

### Hanson Trailhead (FEMA)

This project repairs the Hanson Trailhead that was damaged during 2015 flooding.

- During the incident period of May 4 – June 16, 2015, heavy rainfall produced heavy flows and flash flooding causing damage to this site in multiple storm events. This includes the general area of the pedestrian bridge, and the Fountain Creek embankment to the north of the bridge and pedestrian trail. Flash flooding caused erosion / scouring of the embankment, a large loss of embankment soil material, loss of riprap, loss of a section of the Fountain Creek Regional Trail, and extensive damage to the pedestrian bridge abutments.
- El Paso County contracted with Bohannon Huston Inc. for \$289,000 in 2018 for engineering and design services to develop alternatives, concept plan, and 60% design plans for FEMA review.
- El Paso County submitted the design plans and project extension request to FEMA in 2019. Upon FEMA approval, final design and specifications will be developed.
- El Paso County is also pursuing a partnership with the Fountain Creek Watershed Flood Control and Greenway District to fund a portion of this project.
- Contingent upon FEMA approval, construction is anticipated to start in fall 2020, when creek flows are low, and be completed in summer, 2021.

### Funding Sources

El Paso County Disaster Recovery Funds	\$ 367,500
Fountain Creek Watershed District	\$ 600,000

## Hanson Trailhead Map

## Hanson Trailhead

The Hanson Trailhead is near the southern tip of Fountain Creek Regional Park. It features a gravel parking lot, the Fountain Creek Regional Trail, and a pedestrian bridge across Fountain Creek. The site was severely damaged in the flooding events of 2013 and 2015.

The proposed repairs include installation of soil and riprap along the embankment north of the pedestrian bridge. The sharp inside corner of the creek will be excavated and bend way weirs will be installed to increase capacity and deflect the force of flow away from the creek banks. The pedestrian bridge will be relocated approximately 800 feet downstream and a second span will be installed. High flow channels will be graded around the bridge abutments and activated during high-flow storm events. The Fountain Creek Regional Trail will be re-established throughout the site.

## Rock Island Regional Trail Map

## Rock Island Regional Trail

Set in the eastern plains of El Paso County, the Rock Island Regional Trail runs parallel to Highway 24 between Falcon and Peyton for nine miles on the former Chicago and Rock Island Railroad Line. The site offers excellent views of several landmarks including Pikes Peak and the Rampart Range. Opportunities for wildlife observation are abundant. Parking and picnic tables are available at the Rock Island Regional Trail trailhead in Falcon and benches are at regular intervals along the trail corridor.

2020 - 2024  
Capital Improvement  
Program

Project:  
Fountain Creek Bank  
Stabilization (FEMA)  
Project

**Fountain Creek Bank Stabilization (FEMA)**

This project repairs a large section of creek bank near the Willow Springs Ponds that was damaged during 2015 flooding.

- During the incident period of May 4 – June 16, 2015, heavy rainfall lead to heavy flows and flash flooding causing damage to this site. There was creek bank failure along Fountain Creek, just south of the State Highway 16 Bridge, directly adjacent to the Willow Springs ponds. Flash flooding caused scouring of the embankment, a loss of embankment soil material, loss of riprap, and loss of a 675 liner feet section of the Fountain Creek Regional Trail.
- El Paso County contracted with J3 Engineering Consultants for \$83,000 in 2016 for engineering and design services to develop alternatives, concept plan, and final design set (90%) for permitting and FEMA review.
- The proposed repairs include installation of embankment fill at a 2:1 slope, with vegetation. The toe of the embankment will feature a layering of riprap, grouted riprap, and boulders. Willow staking and other vegetation will also be incorporated into the embankment as a bio-engineering enhancement.
- FEMA completed their review of the design plans in April, 2019. El Paso County is proceeding with final design and development of specifications in 2019.
- Construction is anticipated to start in the fall 2019, when creek flows are low, and complete the repairs in spring, 2020.

**Funding Sources**

El Paso County Disaster Recovery Funds	\$ 356,191

# 2020 - 2024 Capital Improvement Program

## Project: Ute Pass Regional Trail Expansion

### Ute Pass Regional Trail Expansion

The master plan for the Ute Pass Regional Trail was approved by the Board of County Commissioners on October 15, 2015.

- The Ute Pass Regional Trail is a planned 11 mile trail corridor between Manitou Springs and the El Paso / Teller County Line.
- The trail has been developed in sections starting in 2003. Currently 5 miles of the trail remain in the Cascade / Chipita Park area.
- The 2015 Ute Pass Regional Trail Master Plan identified a preferred trail alignment for the remaining 5 mile segment. The alignment includes utilizing public right-of-way by following Chipita Park Road, Fountain Avenue, and CDOT frontage roads, before following French Creek and connecting to the existing Ute Pass Regional Trail.
- The trail will be concrete or asphalt along public roads and gravel along French Creek. A trailhead is planned within public right-of-way along Spring Street that will include parking, restroom facility, and various site amenities.
- El Paso County secured Federal Highway monies from the Colorado Department of Transportation (CDOT) through the Transportation Alternatives Program (TAP) and Transportation Improvement Programs (TIP) to fund the final design and construction of the remaining 5 miles by 2022.
- The project is split into two phases; design and construction. The design portion of the project will commence in 2019. Construction is anticipated to start in 2021.

#### Funding Sources

Regional Park Fees / Parks Capital	\$ 342,000
CDOT (TIP/TAP)	\$ 1,508,000
<b>Total</b>	<b>\$ 1,850,000</b>

#### Estimated Costs

Design / Engineering / ROW	\$ 397,000
Construction	\$ 1,453,000
<b>Total</b>	<b>\$ 1,850,000</b>

## Ute Pass Regional Trail Phase Map

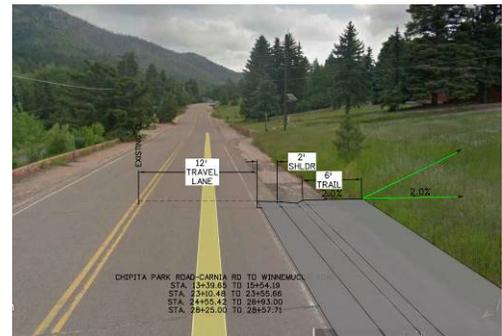

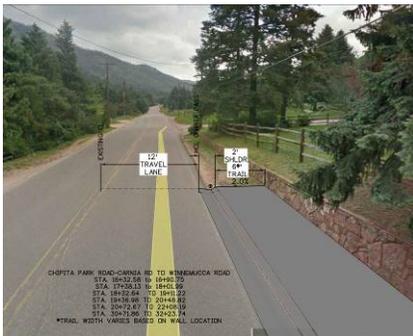

## Ute Pass Regional Trail

The Ute Pass Regional Trail is an 11-mile long trail corridor that will connect the western communities along Ute Pass between Manitou Springs and the El Paso and Teller County Line.

Currently a 3-mile segment of the trail exists starting in Manitou Springs at the Incline Trailhead. This segment of the trail features more challenging terrain and follows the historic route of the Ute Indian Trail. Several interpretive panels are located along the trail and an interpretive loop marks the current end of the trail near Longs Ranch Road.

Another 3-mile segment of the trail starts at Ute Pass Elementary School and continues west through Green Mountain Falls and end at Crystola. This portion of the trail features gentle rolling terrain and provides a great setting for casual walking or bicycling.
